### Key points at a glance

- Children aged under 6 and those aged under 7, who are not yet going to school, always travel with you for free. Children aged between 6 and 14 travel at the child rate.
- Dogs on a lead travel with you for free. Your taking of a dog with you must not disturb other passengers or impair safety on board.
- You can take bicycles with you on VRS services subject to there being sufficient bicycle spaces and enough room.
- For safety reasons (risk of battery fires) e-scooters are banned on buses, trams and light rail services in the VRS. You can take them with you only on S-Bahn and regional train services.
- Tickets from ticket machines or bus drivers are usually time-stamped for immediate travel.

### There is even more that the VRS app and the apps of transport operators can do:

- Plan your route from address to address.
- Have the app navigate you to the nearest stop.
- Find car-sharing vehicles and rental bikes near you.
- Direct purchase as a mobile phone ticket – at c. 3% discount.
